Multiple factors could cause the actual results to differ materially from those contained in any projections or forward-looking statements, including, among others, potential fluctuations in quarterly or other results, dependence on new product development, rapid technological and market change, acquisition strategy, manufacturing risks, volatility of stock price, financial risk management, future growth subject to risks of political instability, economic growth and natural disasters, wars and acts of terrorism.

Notice to U.S. investors

The proposed business combination involves securities of a non-US company. It is important for U.S. securities holders to be aware that this announcement is subject to disclosure and regulations in England that are different from those in the United States. In addition, U.S. securities holders should be aware that this announcement has been prepared in accordance with English format and style, which differs from the U.S. format and style. In particular the financial information of Uralkali and Silvinit included herein has been prepared in accordance with International Financial Reporting Standards, and thus may not be comparable to financial information of U.S. companies whose financial statements are prepared in accordance with generally accepted accounting principles in the United States.

It may be difficult for U.S. securities holders to enforce their rights and any claim they may have arising under the U.S. federal securities laws, since Uralkali is located in the Russian Federation, and some or all of its officers and directors may be residents of countries other than the United States. U.S. securities holders may not be able to sue a non-U.S. company or its officers or directors in a non-U.S. court for violations of the U.S. securities laws. It may be difficult to compel a non-U.S. company and its affiliates to subject themselves to a U.S. court's judgment.

Securities may not be offered or sold in the United States absent registration under the US Securities Act of 1933, as amended (the "Securities Act"), or pursuant to an exemption from such registration. The Uralkali Shares to be issued in connection with the Proposed Combination are not, and will not be, registered under the Securities Act or under the securities laws of any jurisdiction of the United States and will be issued to Silvinit Shareholders in the United States in reliance on the exemption from registration provided by Rule 802 under the Securities Act and in reliance on available exemptions from any state law registration requirements. The securities of Uralkali and Silvinit have not been, and will not be, registered under the Securities Act or under the securities laws of any jurisdiction of the United States.

No profit forecast

Nothing in this announcement is intended to be, or is to be construed as, a profit forecast or to be interpreted to mean that earnings per Uralkali Share, Uralkali GDR, or Silvinit Share for the current or future financial years, or those of either Uralkali or Silvinit, will necessarily match or exceed the historically published earnings per Uralkali Share, Uralkali GDR or Silvinit Share.

Driving Near Term Value Creation through a Compelling Combination...

Highly Attractive Potash Market Dynamics

- Industry fundamentals are highly attractive with excellent demand growth prospects
- Limited access to resources, few high quality ore deposits
- Low stock levels and rising demand should support prices in the medium term

Creation of a Global Leader in the Potash Sector

- One of the leading global potash producers
- Cost-advantaged producer
- Global sales reach – c. 84% of combined sales in 1H 2010 are made to export markets (including Brazil, India, China, SE Asia)
- Blue-chip stock: combined value of US\$23.9bn¹; amongst the largest Russian mining companies

Compelling Strategic Fit

- Unique asset fit:
 - Historically operated as one company until 1983
 - Mining and processing operations in close proximity, facilitating sizeable operational efficiencies
 - Attractive portfolio of development opportunities to sustain organic long-term growth

Unique Opportunity to Unlock Value

- Highly accretive transaction: material EPS accretion (pre-synergies)²
- Significant synergy potential achievable by 2013, with currently quantifiable synergies amounting to c. US\$100m
- Silvinit shareholders get access to the company with long-standing history of high standards of corporate governance and disclosure

Combined Group will be positioned as one of the global leaders; compelling fit will immediately enhance shareholder value

ISS Proxy Advisory Services has stated its support of the Proposed Merger in the report issued on 11 January 2011

Notes:

1. Based on the closing price on 17 December 2010 of the GDRs of Uralkali on the LSE, ordinary shares of Silvinit on the MICEX and preferred shares of Silvinit on the RTS
2. These statements do not constitute a profit forecast and should not be interpreted to mean that the earnings per share in any financial period will necessarily match or be greater than those for the relevant preceding period

Clear Longer Term Strategy to Deliver Future Growth...

“Creation of one of the world’s leading potash companies through leveraging the operational and financial strength of the Combined Company”

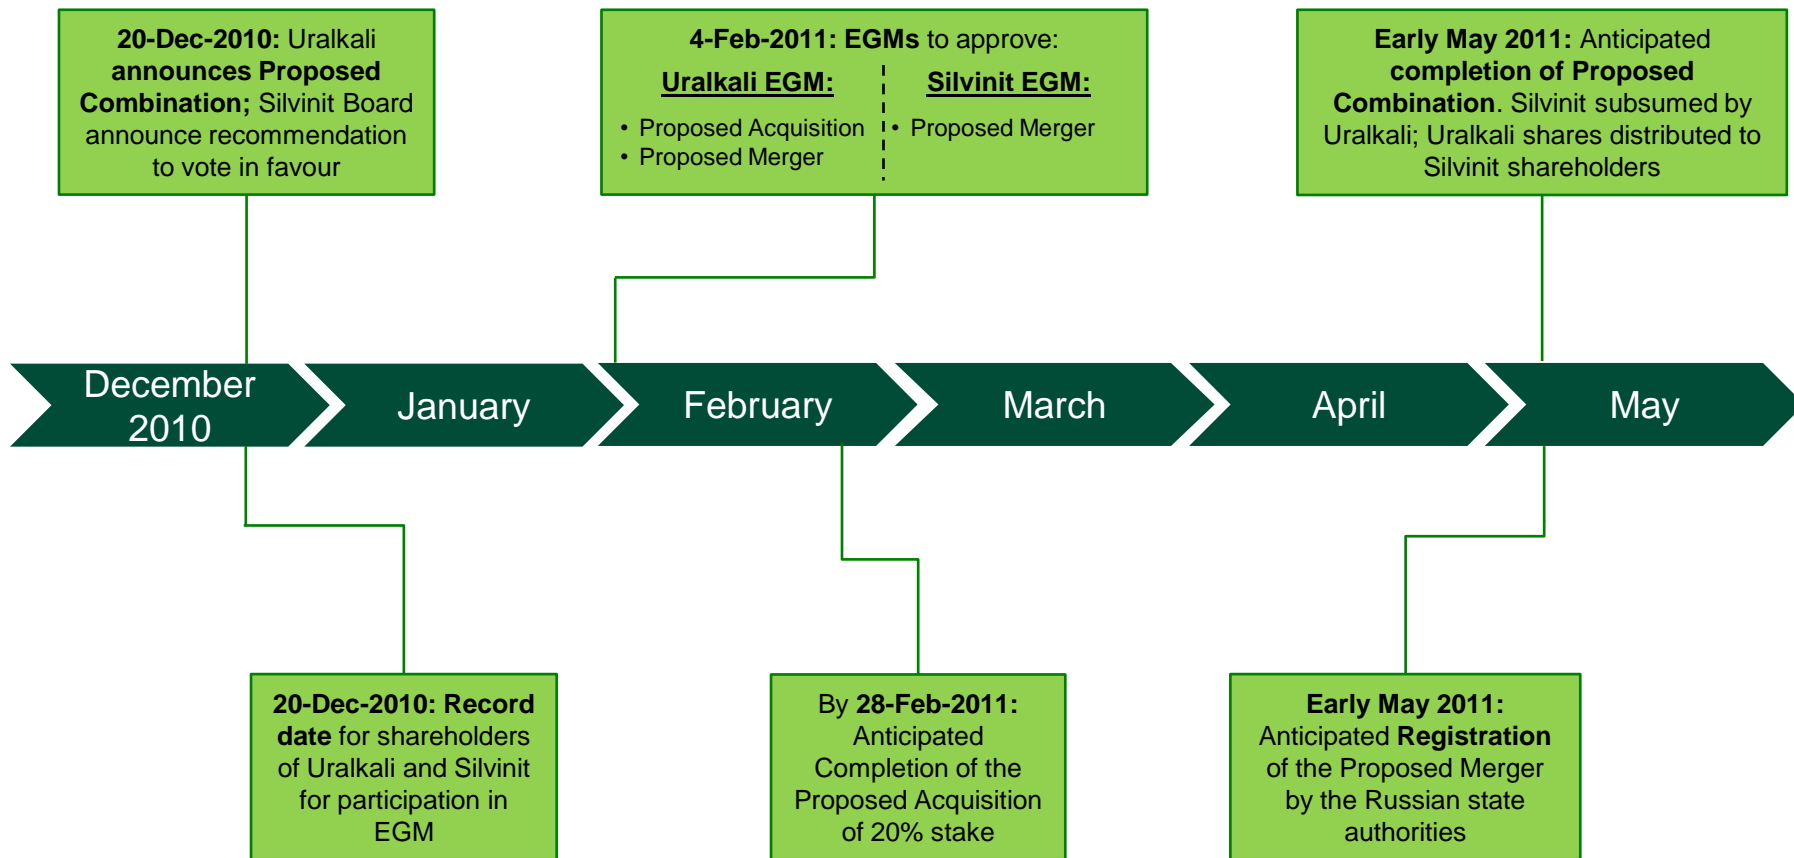

1 Drive Organic Growth	<ul style="list-style-type: none"> ▪ Driving organic growth through a value accretive investment program, to include exploitation of brownfield projects and greenfield development opportunities
2 Enhance Operating Efficiency	<ul style="list-style-type: none"> ▪ Pursuing improvements in operational efficiency to maintain and enhance the Combined Group’s competitive cost position and profitability
3 Optimization of Sales and Marketing Activities	<ul style="list-style-type: none"> ▪ Determining optimum sales and marketing channels
4 Realize Synergies	<ul style="list-style-type: none"> ▪ Realising the considerable synergy potential that exists through the Proposed Combination in an expedited timeframe to increase shareholder value
5 Employer of Choice	<ul style="list-style-type: none"> ▪ Delivering value whilst operating in a socially responsible manner and positioning the Combined Group as the employer of choice in the Russian mining industry
6 Focus on Corporate Governance	<ul style="list-style-type: none"> ▪ Continued commitment to ongoing enhancements in Uralkali’s leading corporate governance standards

Clear strategic road map to position the Combined Company as one of the world’s leading potash companies to drive longer term value creation

Synergy Potential: A Unique Opportunity to Unlock Value

Operational Synergies (c. US\$55m p.a.)

- Operating savings of c. US\$35m p.a. due to
 - Procurement improvements coming from greater economies of scale
 - Increasing technology efficiency and exchange of best technological practices
 - Improved efficiency in repairs and services functions
- Maintenance investment savings of c. US\$20m p.a.
- One time cash release of up to US\$10m due to reduction in spare parts inventories
- Additional benefits are expected to come from integrated approach to the development of Ust-Yayvinsky and Polovodovsky greenfield projects

Transportation Synergies (c. US\$20m p.a.)

- Redirection of Silvinit's transportation routes to the "Baltic Bulk terminal", owned by Uralkali
- More effective use of existing rolling stock through joint management
- Decreased ship chartering costs thanks to larger and longer-term freight contracts

SG&A Synergies (c. US\$25m p.a.)

- Combination of corporate functions, streamlining divisional functions and offices
- Reduction of administrative expenses through elimination of duplicate functions and roles (insurance, consultancy, audit and legal fees)

In aggregate, core synergies identified to-date from the Proposed Combination are expected to reach approximately US\$100 million p.a.¹ by 2013

Conclusion: Compelling Rationale, Driving Shareholders Value...

Highly Attractive Potash Market Dynamics

- Industry fundamentals are highly attractive with excellent demand growth prospects
- Limited access to resources, few high quality ore deposits
- Low stock levels and rising demand should support prices in the medium term

Creation of a Global Leader in the Potash Sector

- One of the leading global potash producers
- Cost-advantaged producer
- Global sales reach – c. 84% of combined sales in 1H 2010 are made to export markets (including Brazil, India, China, SE Asia)
- Blue-chip stock: combined value of US\$23.9bn¹; amongst the largest Russian mining companies

Compelling Strategic Fit

- Unique asset fit:
 - Historically operated as one company until 1983
 - Mining and processing operations in close proximity, facilitating sizeable operational efficiencies
 - Attractive portfolio of development opportunities to sustain organic long-term growth

Unique Opportunity to Unlock Value

- Highly accretive transaction: material EPS accretion (pre-synergies)²
- Significant synergy potential achievable by 2013:
 - Operational (c. US\$55m p.a.)
 - SG&A (c. US\$25m p.a.)
 - Transportation (c. US\$20m p.a.)
 - Joint development of brownfield and greenfield capacity (currently unquantified)

Combined Group will be positioned as one of the global leaders; compelling fit will immediately enhance shareholder value
